The applicant u		until such time that IC	distinguishes between Short Term and Permanent vill simply be marked Confidential when submitted to IC.
Sincerely,			
Ву:	Thomas Ring Manager Cert		

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
